

Extension for the SERVO CUTTER:

## Intelligently controlled take-off conveyor for large diameters

To ensure that the system functions perfectly, the servo cutter and take-off conveyor have now been even better matched to each other.

Take-off conveyor – integrated into the existing servo-cutter control system.

### Your benefits:

- + Delivery table with **continuously adjustable take-off speed**
- + Ejector table with **adjustable ejection delay**
- + **Flexible drop positions**
- + **Orderly depositing** of assembled/ cut-to length products
- + **Sorting, counting and picking** in different storage positions
- + **Buffer storage** in the extrusion line
- + **Rejection** of products that are outside the specified tolerance (scrap cut)

## Everything from a single source

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects**, we are able to offer you not just machines and systems for plastic processing, but also the appropriate test technology to test surfaces for dimensional accuracy.

### We offer comprehensive services and know how:

#### Extrusion plant:

- Mono extrusion lines
- Multi layer extrusion lines
- Smooth pipes up to Ø 50 mm
- Corrugated pipes up to Ø 58 mm
- Own Technical Center

#### Shear roller mixing systems:

- Melting
- Homogenising
- Dispersing
- Compressing
- Granulating

#### Service:

- Joint product development
- Advice
- Development
- Maintenance
