for your production

Production data recording – the smart solution for your Bellaform system

In future, you will be able to log all process-relevant parameters precisely and easily via the data logger module.

The data logger is available as an optional add-on for new Bellaform systems but can also be easily installed in your existing Bellaform system. The data logger is installed in the control cabinet and connected to the available control electronics via the existing interfaces.

Data can be logged on a:
touch panel / USB flash drive / computer's web browser

Your benefits:

- + **Intuitive user interface**
- + **Constant data recording**
of all process-relevant parameters
- + **Location-independent retrieval of the current production data**
on external monitors [PCs]
- + **Data can be exported in common formats** [e.g. Excel]
- + **Connection to higher-level systems**
[e.g. OPC, MQTT, SQL, ...]
- + **Extensions that meet specific customer requirements are possible**
[including at a later date]
- + **Automatic backups**
to external storage media are possible

Technical details:

+ Recording of production statistics
[e.g. production time, fault duration]

+ Modular construction to suit customer requirements –
measurement values can be read from the control unit
or directly from the sensors

+ Data is saved in .csv format and can be
opened in Excel

+ Backup on a USB flash drive and synchronisation to
the customer network [FTP, SMB, etc.] is possible

+ Connection to higher-level systems
[e.g. OPC, MQTT, SQL, ...]

+ Graph display in a web browser [customer network]
from any PC

+ Extensions that meet specific customer requirements
are possible

+ Retrofits on older, existing systems
are also possible

+ Separate monitor available
as an optional extra

EVERYTHING FROM A SINGLE SOURCE

Thanks to our integration into the **PÜTZ GROUP** and the resulting **synergy effects**, we are able to offer you not just machines and systems for plastic processing, but also the appropriate test technology to test surfaces for dimensional accuracy.

Less paper! More digital!

Subscribe to our News + Innovations in an
electronic format and help us to protect the
environment.

**BELLAFORM offers everything
from one single source ...**

... whether you are seeking to
retrofit your systems, procure
replacement parts or construct
a new production line.

**We look forward to receiving
your request!**
