

The smart solution for your Bellaform system:

## Data logger for your production data recording

To better monitor your extrusion process – and thereby to also prevent complaints – Bellaform now offers you the option to equip your system with our new data logger.

**Check the logs from the comfort of your desk!**

Data can be logged on a:  
touch panel / USB flash drive / computer's web browser

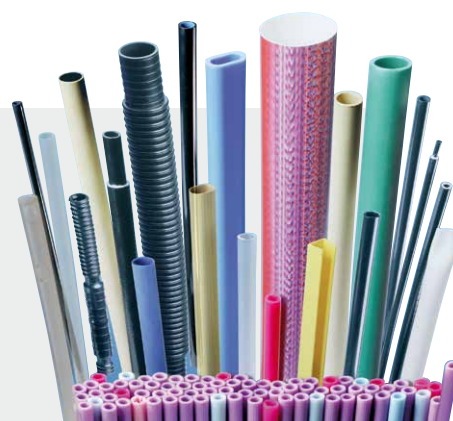

### Your benefits:

- + **Retrofits on existing systems are also possible**
- + **Modular construction to suit customer requirements** – measurement values can be read from the control unit or directly from the sensors
- + **Intuitive user interface**
- + **Constant data recording of all process-relevant production statistics** (e.g. production time, fault duration)
- + **Connection to higher-level systems** (e.g. OPC, MQTT, SQL, ...)
- + **Data can be exported in common formats** (e.g. Excel)
- + **Location-independent graph display in a web browser from any PC** (customer network)
- + **Automatic backups** to external storage media
- + **Backup on a USB flash drive and synchronisation to the customer network** (FTP, SMB, etc.)
- + **Extensions that meet specific customer requirements are possible** (including at a later date)
- + **Optional** with separate monitor

## Everything from a single source

Thanks to our integration into the **Pütz Group** and the resulting **synergy effects**, we are able to offer you not just machines and systems for plastic processing, but also the appropriate test technology to test surfaces for dimensional accuracy.

### We offer comprehensive services and know how:

#### Extrusion plant:

- Mono extrusion lines
- Multi layer extrusion lines
- Smooth pipes up to Ø 50 mm
- Corrugated pipes up to Ø 58 mm
- Own Technical Center

#### Shear roller mixing systems:

- Melting
- Homogenising
- Dispersing
- Compressing
- Granulating

#### Service:

- Joint product development
- Advice
- Development
- Maintenance

### Less paper! More digital!
